

Income and Employment Verification at Employees' Fingertips

Equifax Portal for Employees

When it comes to accessing income and employment information, employees want it delivered quickly and confidentially. With the online web portal from Equifax, employees can access their data 24/7/365 for all verifications needs — **enabling access to important products and services to enrich their lives.**

Full Service Access

With a simple authorization code, current and former employees can access verification data over the web and with mobile devices. This includes employment and income reports, letters of employment (with or without income), travel letters and telephone calls from verifiers directed to Equifax.

Employer Benefits

- Reduce your workload and focus more on your most important asset: people
- Employees no longer need to request employment and income verifications
- Equifax handles telephone calls from verifiers looking to confirm employment and income on your behalf
- Current and former employees can request a verification 24/7/365 without employer network access
- An audit trail with employee usage is provided with a web tool for employers

Employee Benefits

- Reduce delays with 24/7/365 access when buying a home, starting a new job or financing a vehicle
- The burden of gathering income and employment documentation is reduced or removed from the employee
- Independent verifications for lenders, landlords and other verifiers improve employee access to services
- Personal moments remain confidential, as the employer is no longer involved in the verification process
- A fully enabled web portal and mobile experience offers a fast, easy and reliable verification process

Support Services

- Should specialized services be required, a team of bilingual agents can provide support and handle any special requests, 5 days per week
- In the rare event information is inaccurate, a dispute form can be filed through the web portal without delay
- Employees may request a copy of their Consumer Employment Report which displays income and employment information, along with a list of organizations that have requested a verification
