

# Compliance Centre

## Automated Onboarding Compliance Management

### Situation

It is critical for organizations to properly manage their new hire process to provide a great first impression while still gathering important onboarding documentation. There are many factors that can complicate this process, including:

- Errors made by overworked and/or improperly trained staff
- Communication gaps between multiple HR systems
- Need for personalized compliance documentation
- Growing trend of remote and dispersed workforce
- Locations without onsite HR personnel

### Our Solution: Compliance Centre

Compliance Centre is a streamlined solution that automates new hire onboarding. The solution provides process automation, notifications to employees, and management reporting. The web-based portal promotes consistency. It also helps to manage new hire compliance and improve the overall new hire experience, with guidance through your customized forms.

- **Streamlined** — transform the traditional paper new hire packet into an automated, web-based process that can start before the first day of employment
- **Accurate** — the guided process provides controls for improved data accuracy and efficiencies
- **Consistent** — improve the user experience for new hires, hiring managers, and HR
- **Configurable** — platform accommodates employer-specific onboarding needs, locations, and selection of preferred compliance solutions
- **Smart** — rules-based system helps deliver the right new hire documents at the right time
- **Connected** — with links to Applicant Tracking System (ATS) and Human Capital Management (HCM) solutions to simplify the process and improve accuracy

Compliance Centre is a streamlined solution that automates new hire onboarding.

## Compliance Centre - Configurable Components

### Value

Compliance Centre combines onboarding solutions with a configurable technology portal to help you streamline your onboarding process.

- **Achieve savings** through improved efficiency with a seamless user experience for managers and new hires
- **Help enhance employer image** during the critically important first impression of the onboarding process
- **Get new hires to work quickly** while managing onboarding compliance
- **Reduce administrative burden** on hiring managers and HR team
- **Reduce input errors** and get new hire data where you need it, when you need it
