

I-129 Part 5 Question 3, New Pop-up

To help streamline the completion of Part 5, Question 3 of the I-129 form, a new pop-up feature has been implemented.

When a user clicks the "Select Job Location Record" button on the I-129 form, a pop-up window appears. This pop-up's function is to help streamline the process of managing the Foreign National's (FN) job records, specifically those related to work locations. Now it is easier for users to select, edit, and add these secondary work location records, which are linked to the FN's primary job record.

The screenshot shows a pop-up window titled "Part 5. Basic Information About the Proposed Employment and Employer". At the top, there are buttons for "Save and Close", "Update Info", "Save and Lock", and "Cancel". Below the title bar, the text reads: "Attach the Form I-129 supplement relevant to the classification of the worker(s) you are requesting." The form contains three main sections:

- 1. Job Title**: A text input field containing "Job Title 2 part yes (comp)".
- 2. LCA or ETA Case Number**: A text input field. To its right is a button labeled "Show Receipt List".
- 3. Address(es) where the beneficiary(ies) will work if different from address in Part 1. If you need to provide more than two additional addresses, use Part 9. Additional Information.**: This section includes a "Select Job Location Record" button. Below it, the "Address 1" section has several input fields:
 - "Street Number and Name": A large text input field.
 - "Apt. Ste. Flr.": Three small checkboxes.
 - "Number": A text input field with a yellow highlight on its right side.
 - "City or Town": A text input field.
 - "State": A dropdown menu.
 - "ZIP Code": A text input field.

At the bottom of the form, there is a question: "Is this a third-party location?" with radio buttons for "Yes" and "No", and a "Close" button on the far right.

The I-129 Pop-Up helps organize related FN Job location records into two sections. The lower section contains the "Job Location Library." The upper section allows users to select and organize specific Job records for display on the form.
