Sample Verification of Employment (VOE)

The verification of employment is the most commonly requested type of verification. It is typically used to grant credit and provide employment history for pre-employment screening. This type of verification provides basic information about an employee's job, their employer, their title, employment status (active, inactive) and the length of time with the employer.

The statement above is an official verification generated from The Work Number. Because this verification is system-generated with data that originated directly from the employer's payroll system, it is tamper-resistant and represents a higher level of authenticity than employee-furnished copies of paystubs or W2s. If any information is missing, it is because the employer did not provide this information for inclusion in The Work Number verification. Note: If this person left this employer and was rehired later, the "Total Time with Employer" amount will likely be understated and will only reflect the most recent consecutive months of service.
