

Your Partner in Victim Advocacy

Join the VINE Service Provider Directory

VINE® (Victim Information and Notification Everyday) is a free, confidential service that delivers timely and reliable information to victims, families, and community members.

Designed to empower and protect victims of crime, VINE helps individuals make informed decisions and enhance their overall safety. With VINE, you can access comprehensive search capability, convenient registration, and automated notification, all backed by 24/7/365 support and trusted expertise.

Connecting Victims with Essential Services

Fewer than one in ten victims of serious violent crime in the U.S. receive assistance from a victim service agency.¹ The VINE Service Provider Directory addresses this challenge by connecting individuals impacted by crime to services that support their healing journey.

The VINE Service Provider Directory provides centralized access to resources and information, making it easier for victims to locate the assistance they need. The directory includes a range of support services which may include victim assistance, basic needs, children's services, counseling, crisis support, financial assistance, healthcare, and legal assistance. More than 200,000 searches for victim service providers were conducted by VINE users in 2024.²

Access to the VINE Service Provider Directory is available through VINELink.com or by using the VINELink mobile app. By participating in the directory, your organization can connect with and promote services to individuals impacted by crime in your state.

Expand Your Reach and Help More Victims

Join the VINE Service Provider Directory by completing the [online application](#).
