

CFPL Overview

CFPL

Consumer
Financial
Protection Law

The Consumer Financial Protection Law (CFPL) Assessment is the process by which Equifax Recredentialing assesses the business practices, policies, and procedures of resellers and value added brokers of Equifax data.

All Consumer Reporting Agency (CRA) Resellers and Value Added Brokers (VABs) are required to complete a New Engagement Questionnaire (NEQ) prior to being onboarded.

The CFPL Assessment is a required component of the NEQ in order to gain access to Equifax data, including consumer reports.
