# Credit Trends Portfolio: Total Consumer Debt

# Consumer Debt Observations

as of May 2022:

- › Total US consumer debt is \$15.87 trillion, up 7.8% over a year ago. Mortgage debt, including home equity loans, accounts for \$11.53 trillion, a 72.7% share of total debt. Non-mortgage debt totals \$4.34 trillion, equating to a 27.3% share.
- › In May 2022, 34.3% of non-mortgage consumer debt is from auto loans and leases, 38.2% is from student loans, and 18.2% is from credit card balances. Looking back ten years to May 2012, 30.1% of non-mortgage debt was from auto loans and leases, 34.1% was from student loans, and 24.3% was from credit cards. Total non-mortgage debt has risen 70.6% over that time.
- › As of May 2022, HELOCs are 3.0% of mortgage debt outstanding and first mortgages account for 95.8%. Total mortgage debt was up 14.5% from the October 2008 peak level.
- › In May 2022, non-mortgage consumer debt write-offs came in at \$5.55 billion, which is an increase of 17.2% over a year ago.

# Credit Trends Portfolio: Auto leases

# Auto Lease Portfolio Observations

as of May 2022:

- › The number of outstanding auto lease accounts stands at 8.78 million, a decrease of 13.3% year over year.
- › The outstanding balances on auto leases have decreased 11.0% year-over-year to \$83.0 billion.
- › The severe delinquency rate (share of balances 60+ DPD) in May is 0.29%, which is an increase of 9 bps from the previous year.
- › Auto lease write-offs are at 12.9 bps, up from 12.7 bps last year.

Note: Auto lease balance amounts reported to Equifax are not the full value of the account, only the portion due if paid as agreed in the consumer contract. Financial reporting on leases by auto lenders often includes vehicle residual values to reflect financial position of the lenders in reporting to investors and regulators.

# Credit Trends Portfolio: Private Label Credit Card

# Private Label Credit Card Observations

as of May 2022:

- › Outstanding balances on private label credit cards are \$64.4 billion, up 1.0% from a year ago.
- › The number of outstanding cards has decreased 2.0% from a year ago to 190.4 million.
- › The severe delinquency rate (share of balances 60+ DPD) is 3.28%, up 64 bps from May 2021.
- › Write-offs are at 62.3 bps as a share of outstanding balances, down from 68.5 bps in May 2021. Private label credit card write-offs peaked at 121.7 bps in December 2009.
- › In May 2022, the card utilization rate stood at 13.3%, which is 0.1% lower than last month.

Recent declines in the number of outstanding private label card accounts relate to furnishers reporting long inactive accounts as closed. This only affects account totals, as these unused accounts were excluded from performance and utilization statistics.

# Credit Trends Portfolio: Consumer Finance

# Total Consumer Finance Observations

as of May 2022:

- › Outstanding consumer finance balances are \$126.7 billion. This is a 15.8% increase in total balances over a year ago.
- › Outstanding consumer finance accounts increased 10.2% over the past year, from 76.09 million in May 2021 to 83.86 million in May 2022.
- › The severe delinquency rate (share of balances 60+ DPD) is 2.69%, which is a 68 bps increase from the same month last year. Delinquency rates as a share of outstanding balances have been relatively stable as of late, with current delinquencies rate reaching historically low.
- › Write-off rates on consumer finance loans reached 53.7 bps in May. A year ago, it stood at 45.5 bps.

Consumer finance accounts are backed by banks and non-bank finance companies. They include some loans financed by so-called fin-tech companies offering peer-to-peer financing or other relatively new lending platforms.

# Consumer Finance Installment Loan Observations

as of May 2022:

- › Outstanding consumer finance installment balances are \$82.87 billion. This is an 18.7% increase in total balances over a year ago.
- › Outstanding consumer finance installment accounts have also risen over the past year, from 15.67 million in May 2021 to 19.01 million in May 2022, an increase of 21.3%.
- › The severe delinquency rate (share of balances 60+ DPD) is 3.09%, an increase of 86 bps compared to 2.23% in the same month last year.
- › Write-off rates on consumer finance installment balances stand at 59.8 bps in May 2022, compared to 44.6 bps a year ago.

Consumer finance installment accounts are backed by banks and non-bank finance companies, including some fin-tech companies offering peer-to-peer financing or other relatively new lending platforms.

# Consumer Finance Revolving Loan Observations

as of May 2022:

- › Outstanding consumer finance revolving balances are \$43.82 billion. This is a 10.6% increase in total balances over a year ago.
- › Outstanding consumer finance revolving accounts increased 7.3% over the past year, from 60.42 million in May 2021 to 64.85 million in May 2022.
- › The severe delinquency rate (share of balances 60+ DPD) is 1.96%, which is 32 bps higher than May of last year. Overall, delinquency rates as a share of balances has held steadily low (below 3.0%) since 2014 with yearly variations.
- › The write-off rate on consumer finance revolving accounts stands at 42.6 bps as a share of outstanding balances in May 2022, down from 47.4 bps one year ago.

Consumer finance revolving accounts are backed by banks and non-bank finance companies, including some fin-tech companies offering peer-to-peer financing or other, relatively new lending platforms.

# Credit Trends Portfolio: Student Loans

# Student Loan Observations

as of May 2022:

- › Outstanding student loan balances are \$1.545 trillion. This is a 1.9% decrease in total balances over a year ago. Deferred student loans, on which students are not currently obligated to make payments of principal or interest, represent 18.9% of total outstanding balances.
- › Outstanding student loan accounts stood at 163.3 million at the end of May. This is a decrease of 0.4% year over year. Deferred student loans represent 23.4% of total outstanding accounts.
- › The severe delinquency rate (calculated as share of non-deferred balances 90+ days past due or in bankruptcy) is 0.40%. This rate is up from 0.34% a year ago. The severe delinquency rate has significantly decreased since April 2020. We believe the decrease is primarily driven by the CARES Act which places an administrative forbearance on federal loans.
- › Student loan write-offs are rather volatile from month to month (even after using a 3-month moving average). However, the trend is largely level taking this volatility into account.

# Credit Trends Portfolio: Notes

# U.S. Consumer Credit Trends – Portfolio

- › Data are not seasonally adjusted.
- › Due to changes in data reported to Equifax, previously reported data may change.
- › Data are sourced from Equifax’s U.S. Consumer Credit database of over 220 million consumers.
  - Equifax Credit Trends is the primary source for the data in this report; for more information on this database please visit [www.equifax.com/business/credit-trends](http://www.equifax.com/business/credit-trends)
  - These data are population level – not a sample.
  - Jointly held accounts are represented by a randomly selected borrower on the account. Tradelines are only counted once.
  - Exclusions for data quality are applied, such as timely reporting of the establishment of the trade (≤12 months); completeness of the tradeline record including type, credit limit, balance outstanding and status; and other similar filters (e.g., exclude if borrower’s death reported).
- › Definitions: Account Type
  - Auto – Total: all accounts from banks and finance companies for loans or leases on light vehicles.
  - Auto – Lease: a long-term contract lease of the light vehicle that terminates with the return of the car or a balloon payment of the rest of the balance due. Note: Auto lease balance amounts reported to Equifax are not the full value of account, only the portion due if paid as agreed in the consumer contract. Financial reporting on leases by auto lenders often includes vehicle residual values to reflect financial position of the lenders in reporting to investors and regulators.
  - Auto – Loan: traditional amortizing installment loans on a light vehicle.
  - Credit Cards – Bankcard: general purpose credit cards.

# U.S. Consumer Credit Trends – Portfolio

## › Definitions: Account Type, continued

- Credit Cards – Private Label: credit cards issued for use at particular retailers. Sometimes called retail cards or store cards.
- First Mortgage: loans with first lien position on a residential property.
- Home Equity Installment Loan: loans in second lien position on a residential property. These loans are amortizing for the full term of the loan and do not have a draw feature.
- Home Equity Revolving Lines of Credit: loans usually in second lien position on a residential property. These loans commonly require only interest payments during the draw period and then are recast into amortizing payments at the end of the draw. During the draw period the borrower may take advances from the line of credit.
- Total Consumer Finance: installment or revolving loans opened with a sales financing company or a personal finance company. These are typically unsecured finance trades.
- Consumer Finance Installment: consumer finance loans that are amortizing for the full term of the loan and do not have a draw feature.
- Consumer Finance Revolving: consumer finance loans with a line of credit from which the borrower can draw funds.
- Student Loan: loan funded for the purpose of financing post-secondary educational study
- Deferred Student Loan: a student loan on which no payments are required as long as the loan is in deferral status. These loans are not used to calculate delinquency or write-off rates.
- Non-deferred Student Loan: a student loan in active repayment status on which the borrower is expected to make timely interest and principal payments. These loans are used for calculating delinquency and write-off rates.

# U.S. Consumer Credit Trends – Portfolio

## › Definitions: Loan Status

- **Active Accounts:** within Credit Trends this includes all accounts that have a reported status in the most recent past three months. For this report we include only loans that have status reported in the most recent period for calculation of delinquency. All active accounts are included in total outstanding loans.
- **Closed Accounts:** accounts that have a reported status of closed positive, in bankruptcy or severe derogatory. Accounts with these status categories are included in the month in which the status is first reported and are excluded from the database thereafter.
- **Bankruptcy:** a negative terminal status for non-mortgage, non-student loan types indicating the loan was discharged in bankruptcy proceedings.
- **Severe Delinquency:** for auto loans or leases, credit cards and consumer finance, accounts that are 60 days or more past due or in collections. For first mortgage, home equity loans and lines of credit, and student loans, accounts that are 90 days or more past due, in bankruptcy, or in foreclosure (excl. student loans).
- **Severe Delinquency Rate:** The severe delinquency rate is determined by dividing loans total that are severely delinquent by the total number of active loans outstanding in that period. A terminal status (closed positive, write-off, or bankruptcy) is only included in denominator in the month where the transition to terminal status occurs. Mortgages and student loans are not discharged in bankruptcy, so bankruptcy status is included in the delinquency rates for these tradelines for the month in which the status is first reported.
- **Severe Derogatory:** a charge-off, repossession or foreclosure completed, depending on the loan type.
- **Write-off:** sum of balances on accounts in severe derogatory and, for non-mortgage and non-student loan accounts, bankruptcy status.

# U.S. Consumer Credit Trends – Portfolio

## › Definitions: Other

- Basis point (bps): one-hundredth of one percent. E.g., 10 bps equals 0.10%.
- Credit limit: the maximum amount the borrower can access on the account. On installment accounts this is the original loan amount. On revolving accounts this is also known as the credit line or high credit.
- Utilization Rate: In this report, it is the ratio of total outstanding balances to total credit limits for revolving accounts.
