# Credit Trends Portfolio: Total Consumer Debt

# Consumer Debt Observations

as of March 2023:

- › Total US consumer debt is \$16.95 trillion, up 8.0% over a year ago. Mortgage debt, including home equity loans, accounts for \$12.29 trillion, a 72.5% share of total debt. Non-mortgage debt totals \$4.67 trillion, equating to a 27.5% share.
- › In March 2023, 34.1% of non-mortgage consumer debt is from auto loans and leases, 34.9% is from student loans, and 20.9% is from credit card balances. Looking back ten years to March 2013, 30.1% of non-mortgage debt was from auto loans and leases, 36.4% was from student loans, and 23.1% was from credit cards. Total non-mortgage debt has risen 70.6% over that time.
- › As of March 2023, HELOCs are 2.7% of mortgage debt outstanding and first mortgages account for 95.9%. Total mortgage debt was 22.0% below the October 2008 peak level.
- › In March 2023, non-mortgage consumer debt write-offs came in at \$8.23 billion, which is an increase of 79.6% over a year ago. So far in 2023, total non-mortgage consumer debt write-offs came in at \$26.1 billion, an increase of 56.9% over the prior year.

# Credit Trends Portfolio: Auto leases

# Auto Lease Portfolio Observations

as of March 2023:

- › The number of outstanding auto lease accounts has decreased 18.2% over a year ago to 7.47 million.
- › The outstanding balances on auto leases have decreased 15.8% year-over-year to \$71.9 billion.
- › The severe delinquency rate (share of balances 60+ DPD) in March is 0.43%, which is an increase of 12 bps from the previous year.
- › Auto lease write-offs are at 15.7 bps, down from 13.0 bps last year.

Note: Auto lease balance amounts reported to Equifax are not the full value of the account, only the portion due if paid as agreed in the consumer contract. Financial reporting on leases by auto lenders often includes vehicle residual values to reflect financial position of the lenders in reporting to investors and regulators.

# Credit Trends Portfolio: Student Loans

# Student Loan Observations

as of March 2023:

- › Outstanding student loan balances are \$1.625 trillion. This is a 4.4% increase in total balances over a year ago.
- › Outstanding student loan accounts stood at 179.9 million at the end of March. This is an increase of 9.2% over a year ago.
- › Deferred student loans, on which students are not currently obligated to make payments of principal or interest, represent 17.3% of total outstanding balances.
- › Deferred student loans represent 22.0% of total outstanding accounts.
- › The severe delinquency rate (calculated as share of non-deferred balances 90+ days past due or in bankruptcy) is 0.48%. This rate is down from 0.60% a year ago.

# Credit Trends Portfolio: Notes

# U.S. Consumer Credit Trends – Portfolio

- › Data are not seasonally adjusted.
- › Due to changes in data reported to Equifax, previously reported data may change.
- › Data are sourced from Equifax’s U.S. Consumer Credit database of over 220 million consumers.
  - Equifax Credit Trends is the primary source for the data in this report; for more information on this database please visit [www.equifax.com/business/credit-trends](http://www.equifax.com/business/credit-trends)
  - These data are population level – not a sample.
  - Jointly held accounts are represented by a randomly selected borrower on the account. Tradelines are only counted once.
  - Exclusions for data quality are applied, such as timely reporting of the establishment of the trade (≤12 months); completeness of the tradeline record including type, credit limit, balance outstanding and status; and other similar filters (e.g., exclude if borrower’s death reported).
- › Definitions: Account Type
  - Auto – Total: all accounts from banks and finance companies for loans or leases on light vehicles.
  - Auto – Lease: a long-term contract lease of the light vehicle that terminates with the return of the car or a balloon payment of the rest of the balance due. Note: Auto lease balance amounts reported to Equifax are not the full value of account, only the portion due if paid as agreed in the consumer contract. Financial reporting on leases by auto lenders often includes vehicle residual values to reflect financial position of the lenders in reporting to investors and regulators.
  - Auto – Loan: traditional amortizing installment loans on a light vehicle.
  - Credit Cards – Bankcard: general purpose credit cards.

# U.S. Consumer Credit Trends – Portfolio

## › Definitions: Account Type, continued

- Credit Cards – Private Label: credit cards issued for use at particular retailers. Sometimes called retail cards or store cards.
- First Mortgage: loans with first lien position on a residential property.
- Home Equity Installment Loan: loans in second lien position on a residential property. These loans are amortizing for the full term of the loan and do not have a draw feature.
- Home Equity Revolving Lines of Credit: loans usually in second lien position on a residential property. These loans commonly require only interest payments during the draw period and then are recast into amortizing payments at the end of the draw. During the draw period the borrower may take advances from the line of credit.
- Total Consumer Finance: installment or revolving loans opened with a sales financing company or a personal finance company. These are typically unsecured finance trades.
- Consumer Finance Installment: consumer finance loans that are amortizing for the full term of the loan and do not have a draw feature.
- Consumer Finance Revolving: consumer finance loans with a line of credit from which the borrower can draw funds.
- Student Loan: loan funded for the purpose of financing post-secondary educational study
- Deferred Student Loan: a student loan on which no payments are required as long as the loan is in deferral status. These loans are not used to calculate delinquency or write-off rates.
- Non-deferred Student Loan: a student loan in active repayment status on which the borrower is expected to make timely interest and principal payments. These loans are used for calculating delinquency and write-off rates.

# U.S. Consumer Credit Trends – Portfolio

## › Definitions: Loan Status

- **Active Accounts:** within Credit Trends this includes all accounts that have a reported status in the most recent past three months. For this report we include only loans that have status reported in the most recent period for calculation of delinquency. All active accounts are included in total outstanding loans.
- **Closed Accounts:** accounts that have a reported status of closed positive, in bankruptcy or severe derogatory. Accounts with these status categories are included in the month in which the status is first reported and are excluded from the database thereafter.
- **Bankruptcy:** a negative terminal status for non-mortgage, non-student loan types indicating the loan was discharged in bankruptcy proceedings.
- **Severe Delinquency:** for auto loans or leases, credit cards and consumer finance, accounts that are 60 days or more past due or in collections. For first mortgage, home equity loans and lines of credit, and student loans, accounts that are 90 days or more past due, in bankruptcy, or in foreclosure (excl. student loans).
- **Severe Delinquency Rate:** The severe delinquency rate is determined by dividing loans total that are severely delinquent by the total number of active loans outstanding in that period. A terminal status (closed positive, write-off, or bankruptcy) is only included in denominator in the month where the transition to terminal status occurs. Mortgages and student loans are not discharged in bankruptcy, so bankruptcy status is included in the delinquency rates for these tradelines for the month in which the status is first reported.
- **Severe Derogatory:** a charge-off, repossession or foreclosure completed, depending on the loan type.
- **Write-off:** sum of balances on accounts in severe derogatory and, for non-mortgage and non-student loan accounts, bankruptcy status.

# U.S. Consumer Credit Trends – Portfolio

## › Definitions: Other

- Basis point (bps): one-hundredth of one percent. E.g., 10 bps equals 0.10%.
- Credit limit: the maximum amount the borrower can access on the account. On installment accounts this is the original loan amount. On revolving accounts this is also known as the credit line or high credit.
- Utilization Rate: In this report, it is the ratio of total outstanding balances to total credit limits for revolving accounts.
