

Jeremy Koppen

EVP, Chief Information Security Officer

Jeremy Koppen is Chief Information Security Officer of Equifax, charged with continuing the company's leadership in security, a core component of the Equifax EFX2027 Strategic Priorities.

Prior to joining Equifax, Jeremy served as Managing Director of Mandiant, part of Google Cloud, where he led hundreds of cyber engagements for Fortune 100 and 500 companies with a focus on mitigating emerging threats, scaling security operations through automation and AI, and enhancing cyber resilience.

Jeremy has provided strategic counsel to government leaders, corporate boards, and C-Suite executives, and has played a key role in responding to some of the most advanced cybersecurity threats across industries.

Jeremy holds a bachelor's degree in Computer Science from the University of Iowa and a master's degree in Computer Science with a concentration in Digital Forensics from the University of Rhode Island.
