Consumer Debt Observations

as of June 2024:

- › Total US consumer debt is \$17.51 trillion, up 3.9% over a year ago. Mortgage debt, including home equity loans, accounts for \$12.77 trillion, a 72.9% share of total debt. Non-mortgage debt totals \$4.74 trillion, equating to a 27.1% share.
- › In June 2024, 34.7% of non-mortgage consumer debt is from auto loans and leases, 31.5% is from student loans, and 23.0% is from credit card balances. Looking back ten years to June 2014, 30.9% of non-mortgage debt was from auto loans and leases, 37.3% was from student loans, and 22.0% was from credit cards. Total non-mortgage debt has risen 70.6% over that time.
- › As of June 2024, HELOCs are 2.8% of mortgage debt outstanding and first mortgages account for 95.7%.
- › In June 2024, YTD non-mortgage consumer debt write-offs stand at \$72.52 billion and is the highest YTD value (through June) going back to 2012.

Auto Lease Portfolio Observations

as of June 2024:

- › The number of outstanding auto lease accounts has decreased 9.0% over a year ago to 6.55 million.
- › The outstanding balances on auto leases have increased 14.0% year-over-year to \$82.6 billion.
- › The severe delinquency rate (share of balances 60+ DPD) in June is 0.54%, which is an increase of 12 bps from the previous year.
- › Auto lease write-offs are at 14.5 bps, up from 12.7 bps last year.

Note: Auto lease balance amounts reported to Equifax are not the full value of the account, only the portion due if paid as agreed in the consumer contract. Financial reporting on leases by auto lenders often includes vehicle residual values to reflect financial position of the lenders in reporting to investors and regulators.

Credit Trends Portfolio: Private Label Credit Card

Market Pulse
powered by Credit Trends

Private Label Credit Card Observations

as of June 2024:

- › Outstanding balances on private label credit cards are \$64.5 billion, down 3.0% from a year ago.
- › The number of outstanding cards has decreased 8.6% from a year ago to 165.9 million.
- › The severe delinquency rate (share of balances 60+ DPD) is 4.44%, up 33 bps from June 2023.
- › Write-offs are at 101.1 bps as a share of outstanding balances, up from 88.3 bps in June 2023.
- › The average utilization rate on private label cards stands at 13.9% as of June 2024. This is a slight increase from 13.8% a year prior.

Recent declines in the number of outstanding private label card accounts relate to furnishers reporting long inactive accounts as closed. This only affects account totals, as these unused accounts were excluded from performance and utilization statistics.

Student Loan Observations

as of June 2024:

- › Outstanding student loan balances are \$1.492 trillion. This is a 1.0% increase in total balances over a year ago.
- › Outstanding student loan accounts stood at 173.9 million at the end of June. This is a decrease of 2.7% over a year ago.
- › The severe delinquency rate (calculated as share of non-deferred balances 90+ days past due or in bankruptcy) is 0.59%. This rate is up from 0.50% a year ago.

Note: Due to lender reporting, Student Loan trades with an accommodation may be captured in the Credit Trends Student Loan non-deferred product category.

Credit Trends Portfolio: Notes

Market Pulse
powered by Credit Trends

U.S. Consumer Credit Trends – Portfolio

- › Data are not seasonally adjusted.
- › Due to changes in data reported to Equifax, previously reported data July change.
- › Data are sourced from Equifax’s U.S. Consumer Credit database of over 220 million consumers.
 - Equifax Credit Trends is the primary source for the data in this report; for more information on this database please visit www.equifax.com/business/credit-trends
 - These data are population level – not a sample.
 - Jointly held accounts are represented by a randomly selected borrower on the account. Tradelines are only counted once.
 - Exclusions for data quality are applied, such as timely reporting of the establishment of the trade (≤12 months); completeness of the tradeline record including type, credit limit, balance outstanding and status; and other similar filters (e.g., exclude if borrower’s death reported).
- › Definitions: Account Type
 - Auto – Total: all accounts from banks and finance companies for loans or leases on light vehicles.
 - Auto – Lease: a long-term contract lease of the light vehicle that terminates with the return of the car or a balloon payment of the rest of the balance due. Note: Auto lease balance amounts reported to Equifax are not the full value of account, only the portion due if paid as agreed in the consumer contract. Financial reporting on leases by auto lenders often includes vehicle residual values to reflect financial position of the lenders in reporting to investors and regulators.
 - Auto – Loan: traditional amortizing installment loans on a light vehicle.
 - Credit Cards – Bankcard: general purpose credit cards.

U.S. Consumer Credit Trends – Portfolio

› Definitions: Account Type, continued

- Credit Cards – Private Label: credit cards issued for use at particular retailers. Sometimes called retail cards or store cards.
- First Mortgage: loans with first lien position on a residential property.
- Home Equity Installment Loan: loans in second lien position on a residential property. These loans are amortizing for the full term of the loan and do not have a draw feature.
- Home Equity Revolving Lines of Credit: loans usually in second lien position on a residential property. These loans commonly require only interest payments during the draw period and then are recast into amortizing payments at the end of the draw. During the draw period the borrower may take advances from the line of credit.
- Total Consumer Finance: installment or revolving loans opened with a sales financing company or a personal finance company. These are typically unsecured finance trades.
- Consumer Finance Installment: consumer finance loans that are amortizing for the full term of the loan and do not have a draw feature.
- Consumer Finance Revolving: consumer finance loans with a line of credit from which the borrower can draw funds.
- Student Loan: loan funded for the purpose of financing post-secondary educational study
- Deferred Student Loan: a student loan on which no payments are required as long as the loan is in deferral status. These loans are not used to calculate delinquency or write-off rates.
- Non-deferred Student Loan: a student loan in active repayment status on which the borrower is expected to make timely interest and principal payments. These loans are used for calculating delinquency and write-off rates.

U.S. Consumer Credit Trends – Portfolio

› Definitions: Loan Status

- **Active Accounts:** within Credit Trends this includes all accounts that have a reported status in the most recent past three months. For this report we include only loans that have status reported in the most recent period for calculation of delinquency. All active accounts are included in total outstanding loans.
- **Closed Accounts:** accounts that have a reported status of closed positive, in bankruptcy or severe derogatory. Accounts with these status categories are included in the month in which the status is first reported and are excluded from the database thereafter.
- **Bankruptcy:** a negative terminal status for non-mortgage, non-student loan types indicating the loan was discharged in bankruptcy proceedings.
- **Severe Delinquency:** for auto loans or leases, credit cards and consumer finance, accounts that are 60 days or more past due or in collections. For first mortgage, home equity loans and lines of credit, and student loans, accounts that are 90 days or more past due, in bankruptcy, or in foreclosure (excl. student loans).
- **Severe Delinquency Rate:** The severe delinquency rate is determined by dividing loans total that are severely delinquent by the total number of active loans outstanding in that period. A terminal status (closed positive, write-off, or bankruptcy) is only included in denominator in the month where the transition to terminal status occurs. Mortgages and student loans are not discharged in bankruptcy, so bankruptcy status is included in the delinquency rates for these tradelines for the month in which the status is first reported.
- **Severe Derogatory:** a charge-off, repossession or foreclosure completed, depending on the loan type.
- **Write-off:** sum of balances on accounts in severe derogatory and, for non-mortgage and non-student loan accounts, bankruptcy status.

U.S. Consumer Credit Trends – Portfolio

› Definitions: Other

- Basis point (bps): one-hundredth of one percent. E.g., 10 bps equals 0.10%.
- Credit limit: the maximum amount the borrower can access on the account. On installment accounts this is the original loan amount. On revolving accounts this is also known as the credit line or high credit.
- Utilization Rate: In this report, it is the ratio of total outstanding balances to total credit limits for revolving accounts.
