

A close-up photograph of a woman with long brown hair, wearing blue-rimmed glasses and a dark blue top. She is smiling broadly, showing her teeth. The background is blurred with bokeh light effects. In the top left corner, there is a red circular logo with the word "EQUIFAX" in white.

EQUIFAX

Power your marketing
with consumer Economic Insights

Target optimal customers and prospects with insight into the consumer wallet

Today's marketers have an abundance of in-house and third-party data available to them to enhance their consumer segmentation and targeting efforts. But marketing spend is wasted if you end up targeting people that do not have enough cash or credit to afford your products, take advantage of your promotions, or invest for the future.

That's where **Economic Insights** from Equifax come in — to help you differentiate and find consumers that have the right financial profile for your brand, products and services.

By leveraging insights on household income, spending, credit, and ability to pay, companies can identify affluent audiences, find best customers of tomorrow, reach consumers with modest means, or differentiate those that might struggle to pay their commitments. Then, campaigns can be executed across channels to engage each audience with the right message.

Enhance your segmentation with **Economic Insights**

UNDERSTAND

Understand your customers with measures of household income, spending, credit, and ability to pay

SEGMENT

Segment your audiences to identify consumers likely to have the cash and credit to spend or invest

REACH

Work with Equifax to reach your optimal audience through direct and online channels

ANALYZE

Size markets by economic capacity and locate geographies ripe for growth

Power your marketing with insight into household income, spending, credit, and ability to pay.

How can **Economic Insights** power your marketing across the customer journey?

DISCOVER and target high-potential consumers and markets

- Consumers

 - Target and activate prospect audiences via direct mail, email, display, mobile, social, addressable TV, internet radio, and more
 - Differentiate consumers that have the ability to pay for loans, payment plans, or other financial commitments
 - Inform point-of-sale and call centers to prioritize high value consumers
 - Market analysis
 - Locate markets with growing (or shrinking) income, affluence, or spending levels
 - Inform advertising across target markets based on economic capacity
 - Compliance and regulatory
 - Leverage models that exclude protected-class attributes and demographics to meet compliance requirements
-

ACQUIRE new customers and optimize onboarding

- Understand economic profiles to optimize initial engagement
 - Inform lead allocation based on income and spending opportunity
-

MANAGE and grow valuable customers and markets

- Customers
 - Differentiate customers by income and spending ability for appropriate messaging and engagement strategies
 - Find audiences ripe for cross-sell/upsell and that can spend more, even in economic downturns
 - Segment customers for loyalty programs and premium service
 - Inform point-of sale and call centers to prioritize high-value customers
 - Market analysis
 - Size markets by economic profiles
 - Assess income and spending potential to manage location planning
-

RECOVER valuable customers

- Identify and retain valued customers that show signs of shifting spend to other firms
- Assess ability to pay to prioritize consumers for collections efforts

An elderly couple is shown in a close-up, smiling and looking at a tablet computer. The man, on the left, has white hair and a beard, wearing a light blue button-down shirt. The woman, on the right, has blonde hair and is wearing a yellow top and a colorful patterned scarf. They are both looking intently at the screen of the tablet, which is held by the man. The background is softly blurred, suggesting an indoor setting with natural light.

Economic Insights
based on the
household wallet.

Economic Insights for **Segmentation and Targeting**

Differentiate by income, affluence, and spending

A total income measure that goes beyond a paycheck

Income360

Income360® is not just wages and salaries. It is an estimate of a household's total income — including income generated from assets, income from retirement funds, and income from businesses, in addition to wage income. And unlike other income measures, Income360 provides continuous dollar-based income estimates all the way up to \$2.0 million. Income360 excels at differentiating households at the high end of the income spectrum, but can be used to enhance any targeting effort or model where income plays a role in driving customer engagement.

An index of households' capacity to spend, save, or invest

Affluence Index

As a marketer, you need to understand which consumers are most likely to be able to purchase or invest in your products and services. Affluence Index™ does just that — it offers an index that scores households based on their likely discretionary spending power. The index provides a household-level continuous score ranging from 1 to 1000. With Affluence Index, marketers can better segment and target consumers with untapped spending and investment potential.

A dollar measure of household spending capacity

Spending Power

Life is expensive — fixed expenses including housing, utilities, public transportation, personal insurance, and pensions all eat into consumers' incomes. With Spending Power™, marketers can better understand how much money consumers have available to spend, save, or invest after their fixed expenses. It provides a continuous, modeled dollar amount, up to \$1.2 million, of what a household likely has available to spend on discretionary items.

Leverage insight into the household wallet to **target the right customers** and prospects.

Economic Insights for **Segmentation and Targeting**

Differentiate by ability to pay and credit usage

Ability to meet financial obligations, even during difficult financial conditions

Ability to Pay Index

Ability to Pay Index™ provides unique insight into a household's estimated economic capacity and ability to pay for products, services, and financial commitments, even during economic downturns. It provides a modeled continuous score, ranging from 1 to 1000, derived from the intersection of three key financial components: estimated income, spending, and credit. Marketers can use this unique index to differentiate households for marketing, account management, payment plans, and collections efforts.

Non-FCRA measures of household credit availability, needs, and usage

CreditStyles Pro

CreditStyles® Pro provides useful measures for marketing applications that may benefit from a view of household credit, but not need or qualify for a full FCRA credit check. As a suite of non-FCRA, aggregated credit measures, CreditStyles Pro offers marketers insight on households' likely credit availability, needs, and usage through Detailed Credit Variables, Risk Indicators, Intent Indicators, and Aggregated FICO® Scores.

Economic Insights for segmentation and targeting are available for both **offline** and **digital marketing**

Economic Insights for **Digital Targeting**

Reach the right audiences online

Audiences powered by insight on the consumer wallet and purchase intentions

Digital Targeting Segments

All of our Economic Insight segmentation and targeting measures — along with hundreds of additional audience segments — are available for use in digital channels. Marketers can leverage our standard Digital Targeting Segments, or onboard custom audiences, to reach desired consumers via display ads, social, mobile, addressable TV and radio, and other digital channels. Our extensive network of data partners, along with our database of over 300 million consumers, translates into high linkage across offline and online channels... critical for consistent digital execution and multi-channel marketing.

Digital Targeting Segment categories:

INCOME

- Income360 Digital
- Financial Mobility

SPENDING

- Discretionary Spending Dollars Digital

FINANCIAL DURABILITY

- Financial Durability Segments
- Ability to Pay Digital

CREDIT

- Aggregated FICO®
- Auto
- Credit Card
- Insurance
- Mortgage
- Student Loan

Use Economic Insights across marketing channels — **display, social, mobile, addressable TV** and more.

Economic Insights for **Market Measurement and Opportunity**

Find growing markets and inform geographic marketing

Assess geographies by income, affluence, spending, and ability to pay

Ground Counts

Many of our Economic Insights can be used at the market level. With household Ground Counts, marketers can better size and identify growing markets by income, affluence, spending, and ability to pay. Ground Counts can also be used to inform new site locations and advertising budgets based on knowledge of the economic capacity of households in the region, as well as to compare markets by economic measures.

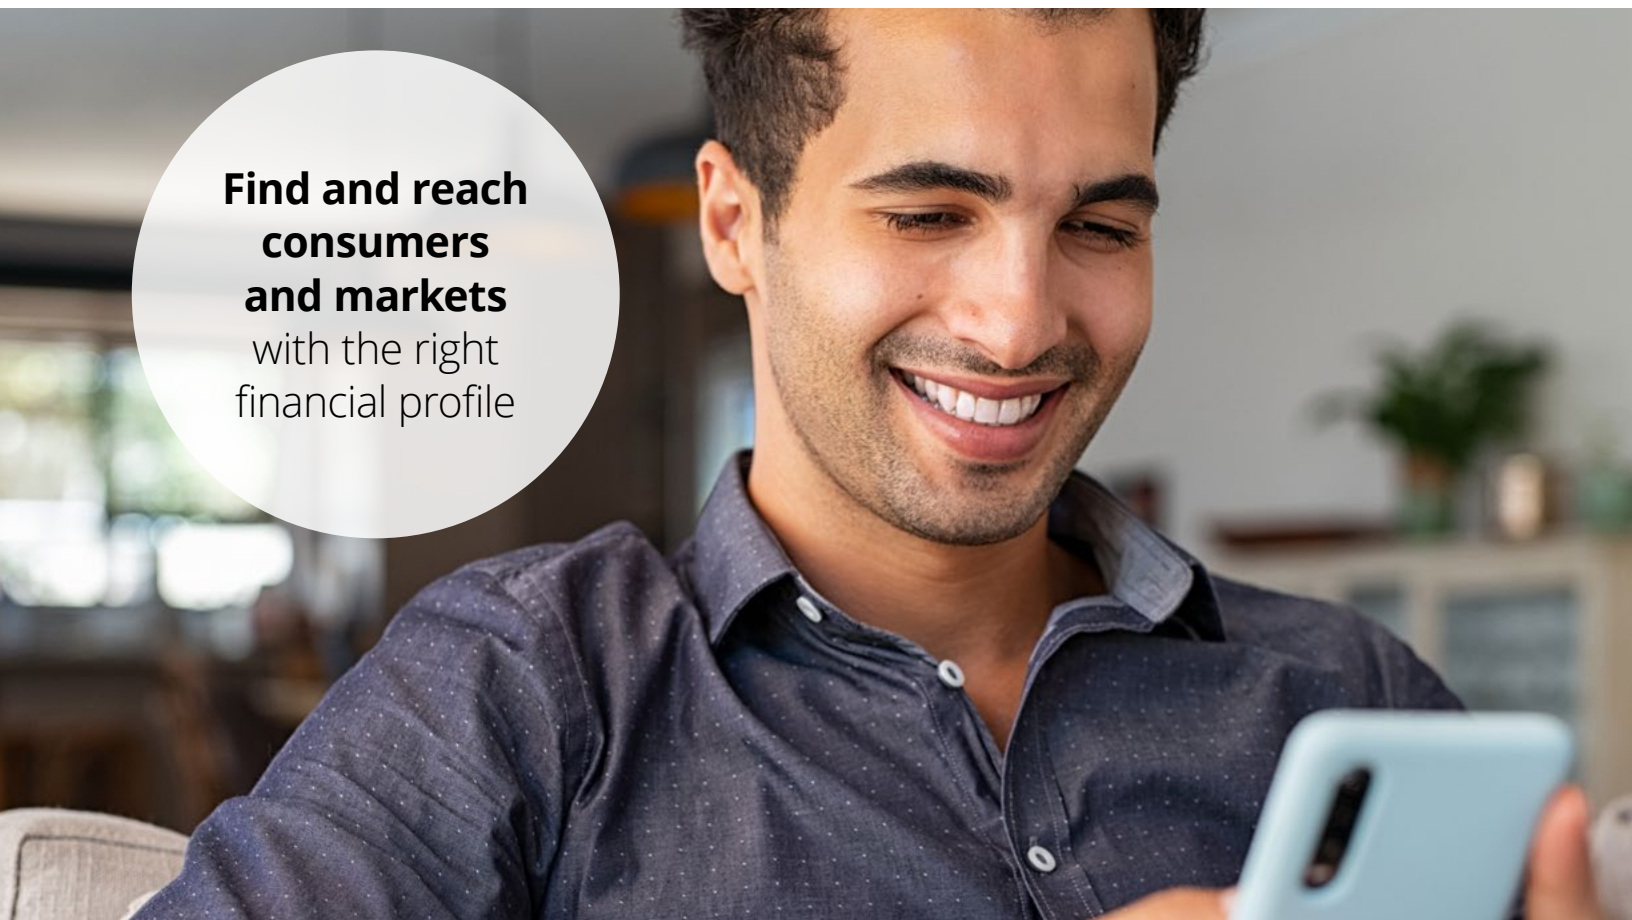

Market size and share of outstanding credit in target geographies

CreditMix

CreditMix™ enables companies to better determine the market size and their share of outstanding credit within their target markets, as well as the credit health of desired geographies. Based on aggregated total outstanding credit for non-FCRA marketing, CreditMix provides both credit dollars and share of credit for hundreds of credit variables including mortgage and non-mortgage categories, mapped and broken down to desired geographic levels.

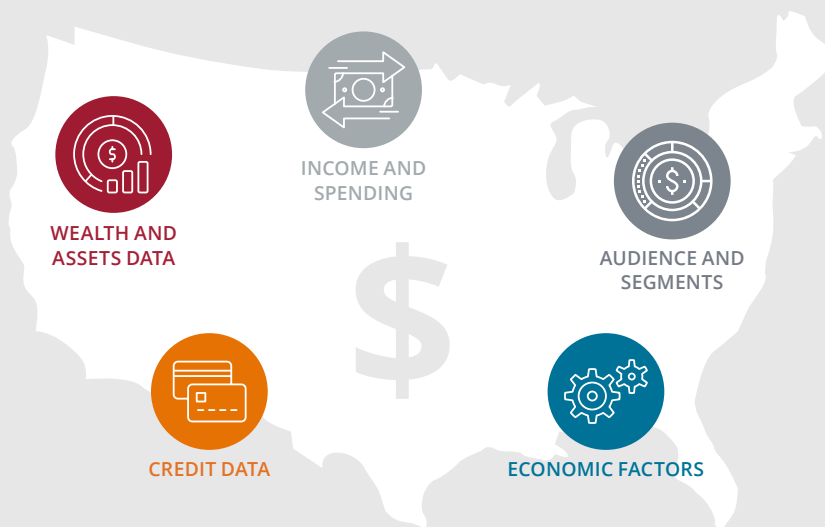

Find and reach consumers and markets with the right financial profile

Economic insight for nearly every U.S. household

Insights to find the opportunity and grow your business

Our unique insight into the consumer wallet is what distinguishes us from other segmentation and targeting options available today. With direct-measurement of over \$20 trillion in anonymous U.S. consumer investable assets — about 45% of all investable assets — and credit data for over 220 million consumers in the U.S., our economic insights enable companies to reach households that are most likely to have the right financial profile to spend, invest, or pay for obligations. These insights are built without using personally identifiable information.

Why do companies work with us to enhance their customer and prospect targeting?

- Specialty in the consumer wallet
- Experts in consumer data
- Extensive scale translates to high linkage
- Reach audiences on all channels

Advance your marketing with Economic Insights
