

Todd Horvath

Executive Vice President & President, U.S. Information Solutions

Todd Horvath is President of U.S. Information Solutions (USIS) at Equifax. In this role, Horvath is responsible for leveraging the company's differentiated data assets, Equifax Cloud™-based technology and deep analytics expertise to create innovative solutions that drive financial opportunity for businesses and consumers.

Horvath joined Equifax from Fiserv, where he most recently served as the Co-Head of the Fiserv Banking organization. In this role, he was responsible for enabling the success of thousands of financial institutions and fintech clients, taking a customer-centric approach to the development and delivery of innovative card payment, debit network, digital banking and payments, data aggregation, and account processing solutions. During his tenure at Fiserv, Horvath also held the role of Executive Vice President and Group President of Account Processing, where he led the delivery of on-premise, private cloud and public cloud fintech solutions to financial institutions across the United States

Horvath previously spent 18 years in international leadership roles at Automatic Data Processing (ADP), most recently holding the position of President, Multinational Clients. In this role, he spearheaded efforts to expand the breadth of ADP's Human Capital Management (HCM) services and solutions through strategic partnerships and the architecture of a single, unified platform

Horvath received a Bachelor of Arts from the University of California, San Diego and a Master of Business Administration from the Thunderbird School of International Management.
