

## EQUIFAX NOTIFICATION:

### Internet System to System URL - IP Address Migration 12/2/18

November 8, 2018

Equifax will be migrating customers using the Internet System to System (iSTS) URL to a new IP address as indicated below. The URL remains the same – only the IP address will be changed.

iSTS URL	OLD IP	NEW IP	CHANGE DATE
transport5.ec.equifax.com	165.183.168.53	216.46.126.39	Sunday, 12/2/18 3:00am – 7:00am EST

#### WHO'S IMPACTED:

All Internet System-to-System users accessing <https://transport5.ec.equifax.com> will be migrated to the new IP address.

#### ACTION REQUIRED:

Only customers with the following exceptions will be required to update current firewall rules and/or IP lists & tables with the new IP address provided.

- External IP address require Firewall Rule/White-List
- Network Address Translation (NAT) rules mapping URL to IP Address
- Overriding Public DNS by mapping domain to specific IP address (/etc/host)
- DNS Cache Time To Live (TTL) set to forever

#### WHO TO CONTACT:

If you need additional details or assistance with this change, please contact us at [Gps\\_technical\\_client\\_services\\_team@equifax.com](mailto:Gps_technical_client_services_team@equifax.com). If you experience any issues post-migration, please reach out to our Equifax Service Desk [ESD@equifax.com](mailto:ESD@equifax.com) or 888-407-0359, Option 7.

Thank you for being an Equifax customer.
