

Talent Report™ Dates of Attendance

Instantly verify a candidate's dates of attendance for postsecondary education

Talent Report Dates of Attendance expands our Verification of Education product suite by providing a candidate's dates of attendance for all available postsecondary institutions per Social Security Number (SSN) in an easy to consume report.

In partnership with National Student Clearinghouse®, Talent Report Dates of Attendance can be used when **some education** is required in the hiring process, acting like a proxy when education data is not available. This helps employers make better informed hiring decisions and because Talent Report Dates of Attendance leverages candidate-based pricing with a single fulfillment rate and no school fees, screeners receive greater fee certainty.

Talent Report Dates of Attendance:

Summarizes continuous dates of attendance and shows gaps in attendance

Returns all available postsecondary schools by SSN with no school fees

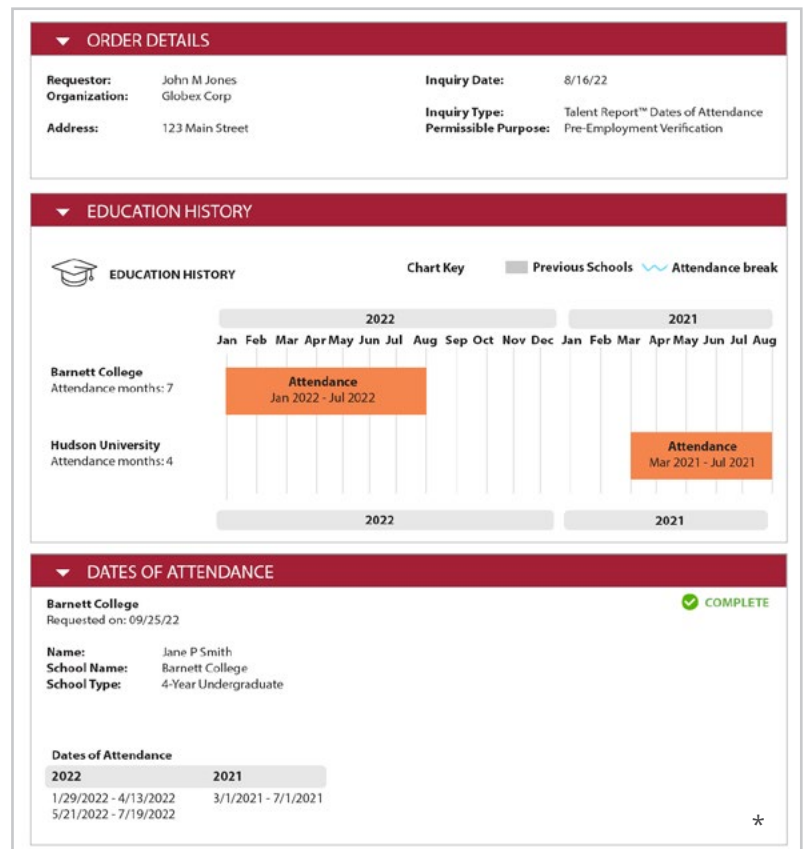

Acts as a proxy when education data is not available

Delivers a more streamlined ordering experience using a single SSN

Easy to Consume Report

*Example only. This is not a true representation of the actual report provided and not all data will be available at all times.
