

Talent Report™ Employment

Enhanced suite of offerings for pre-employment verifications

Talent Report™ Employment leverages verified employment data from The Work Number® to validate a candidate’s employment history and provides background screeners and HR professionals the ability to search candidate history by time-frame or by a specified number of recent employers. This enhanced offering, combined with Social Security Number (SSN) search functionality, helps deliver a more efficient hiring process and the ability to make better informed hiring decisions.

Benefits of Talent Report Employment

Gain increased flexibility

Search candidate history by time-frame or by a specified number of recent employers to gain greater flexibility for meeting the needs of end-user clients

Make more informed hiring decisions

SSN search functionality provides a more holistic candidate view for helping to make better informed hiring decisions

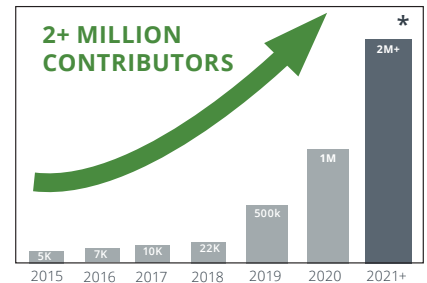

Receive greater transparency

Fulfillment based pricing helps make it easier to better manage costs incurred when verifying employment history

Growth of The Work Number database

The Work Number database continues to experience unprecedented contributor growth providing unmatched access to more than 504 million active and historic employment records from over 2 million employer contributors, resulting in an average of 4.6 employment history records returned per candidate.¹

In the past 12-months, more than 52 million records and 1 million employer contributors have been added to The Work Number² resulting in a 99.8% hire date fill rate³. This continued investment means better hit rates, less manual work for your teams and the ability to make more informed hiring decisions.
