No-Cost Employment Verification
ADP Employment Verification powered by The Work Number® from Equifax

When your employees apply for loans, lines of credit and government benefits, verifiers need you to respond to employment and income verification requests. Also, employment and income information can be requested for account review, to confirm continuing eligibility or to enforce obligations undertaken by the employee.

Don't worry. ADP Employment Verification can help you quickly fulfill these requests and provide employees with faster opportunities for credit and benefits — while reducing your company’s risk.
