Solutions

## Client profile

Jackson Healthcare is one of the nation's largest healthcare staffing and technology firms with 1,500 associates and more than 7,500 clinician providers covering all 50 states.

## Challenge

Healthcare means higher expectations. And with an emphasis on delivering high-quality healthcare staffing services, there is a need for Jackson Healthcare to be more efficient with the Affordable Care Act (ACA) Employer Mandate reporting requirements.

The ACA brought unprecedented changes to the Staffing industry. With variable-hour employees, breaks-in-service, and other unique complexities, Jackson Healthcare needed a platform that could serve as a centralized repository for their disparate data, help streamline processes, improve business efficiency, and help Jackson Healthcare with their ACA management.

## Solution

Jackson Healthcare chose Equifax to help them with their ACA management.

Equifax was able to help them:

- Reduce compliance risks
- Decrease administrative burdens
- Save time collecting data from multiple sources
- Identify potential errors in determining eligibility
- Manage subsidy notifications and appeals.

## ACA HQ™ from Equifax

Equifax draws upon years of experience in helping organizations with HR requirements, tax, and employment-related services to help employers better manage their ACA reporting requirements.

Our award-winning technology will collect and aggregate the data you provide in order to help you handle the processes between employees, the exchanges, and the IRS.
