

Compliance Center

You can help simplify form activities throughout the employee lifecycle while reducing friction from your workflows.

The risk of employee forms management is growing

Employee expectations of a more personalized experience through onboarding and beyond, combined with a rapidly changing regulatory environment, and complex legislation, means there's more risk and cost around workforce forms management than ever before.

What if you could simplify your onboarding, stay on top of changing regulations, and help automate form management, and delivery throughout the employee lifecycle, all in one place?

You can better automate your employee forms management needs and help stay on top of changing regulations within one platform. Compliance Center™ can help you:

Onboard New Hires More Quickly

New hires can complete paperwork quicker and more accurately from their home, the office, or nearly anywhere on a mobile device.

Get Forms Done Right and On Time

Pull data from your Applicant Tracking System (ATS) to new hire packets with built-in rules to help reduce errors and save time.

Manage New, Active, and Terminated Employee Forms

More easily send state required notices and separation forms as well as your own custom documents throughout the employee lifecycle.

Personalize the Employee Experience

Help simplify and speed up onboarding, active employment notifications, and offboarding processes for a more holistic employee experience.

Create an Audit Trail

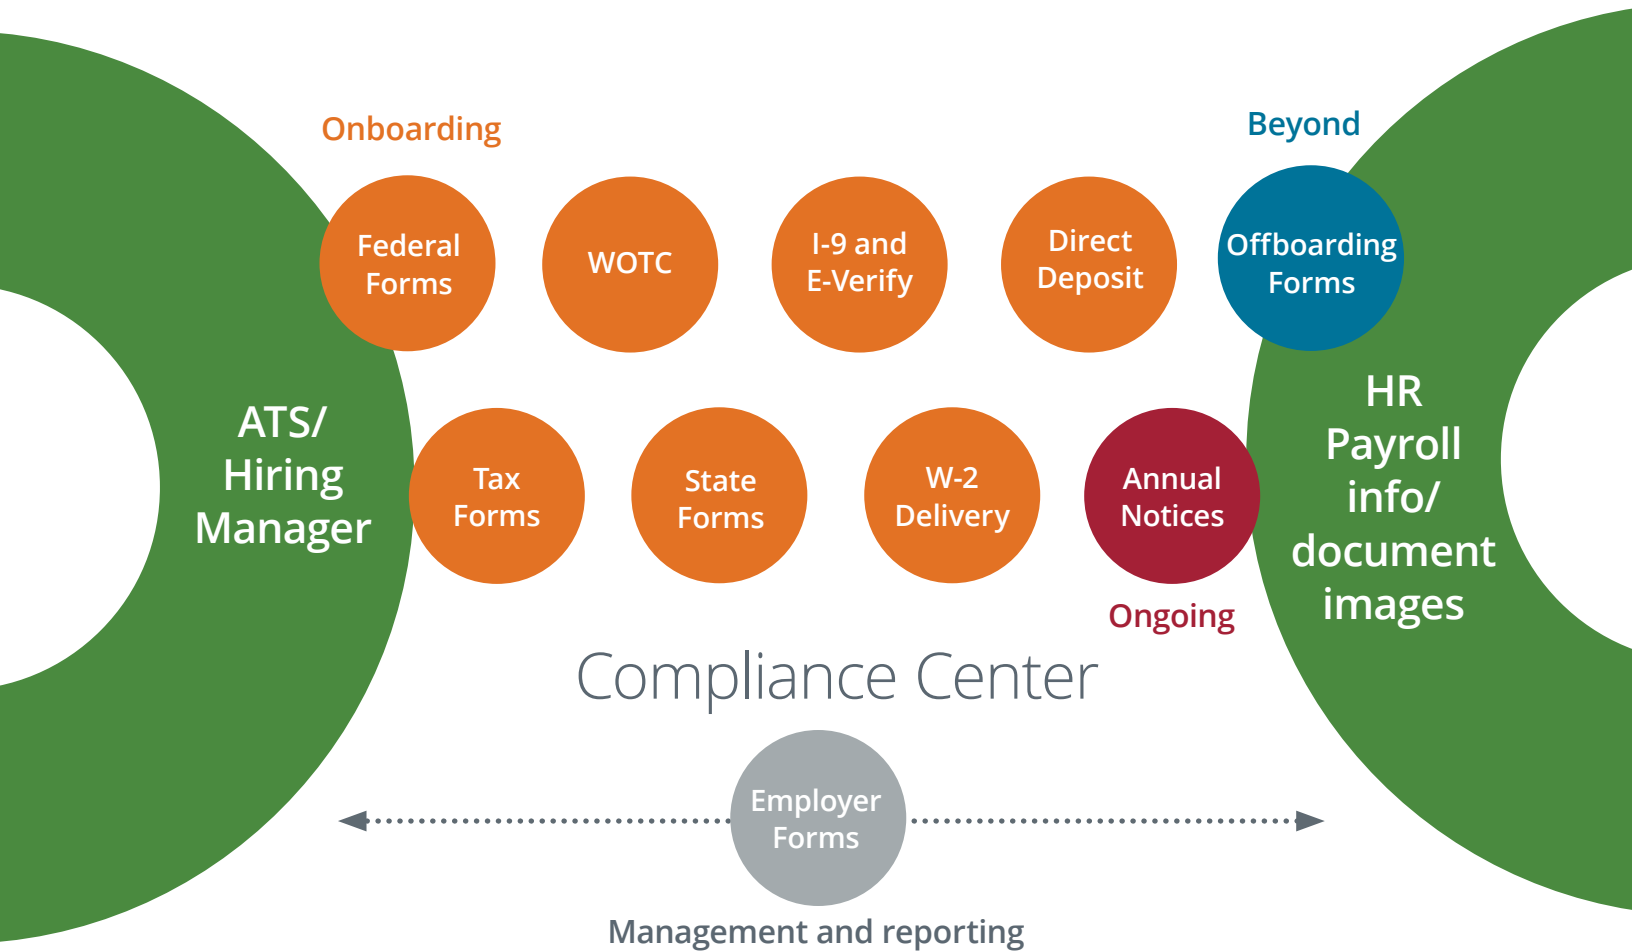

Employees acknowledge notifications with electronic signatures, providing you with a more detailed audit trail.

Keep It All Connected

Link to your ATS, Human Capital Management system (HCM), payroll, and other systems to help you streamline workflows with standard integrations and API networks.

Options for Today and Tomorrow

Our suite of market-leading services, including **I-9 Management**, **State Forms**, **Offboarding Forms**, and more, are integrated with **Compliance Center** to help you meet today's needs and tomorrow's goals.
